Inside NUTRIKIDS POS: Valuable Tools, Features & Enhancements

This eye-opening review will show you the very best your NUTRIKIDS POS program has to offer. We will surprise you with great tools, product features and program enhancements you probably never knew were in your NUTRIKIDS POS program!

Free & Reduced Functions

Continually changing government regulations along with your program requests have helped drive many of the new features and enhancements you'll find in the Free & Reduced Module today. Take a closer look at these changes and get your questions answered.

NUTRIKIDS POS Reports

Learn how to interpret the information presented on each report and discover which reports are best suited for your school districts' food service operation.

Review of new/upcoming functionality in NUTRIKIDS POS

With new releases of NUTRIKIDS POS Manager and Serving Line programs coming out each and every school year, there are many new features and enhancements to keep up with. Here is your opportunity to see new and upcoming additions to the program and find out how it can benefit your school meal program.

Discussion and feedback from users on functionality, needs and future requirements for development

This is your time to tell us what you would like to see included in NUTRIKIDS POS. We'll engage in discussions focused exclusively on your experience with the NUTRIKIDS POS program and where you would like to see the system headed next.
